The members discussed and reviewed the contents of the syllabi at length and after a day long discussion finally granted the approval of the syllabi Based on Choice Based Credit System to be implemented from the academic session 2014. The members realised that since Bioresources Programme has extreme paucity of faculty and at present has only two available permanent faculty members, the Elective Open courses should be floated at the most for only two semesters (Sem II & III). The meeting ended with the vote of thanks to the chair.
